EVERGREENS

For wonderful effect both winter and summer, the evergreen has no superior. Succeeding in almost any soil, with their range of color, form, and habit of growth, they find a place in almost any landscape plan. Our trees are all several times transplanted, dug with a ball of earth, and the finest to be had.

ABIES - FIR		JUNIPERUS - JUNIPER	
Abies Concolor..Silver white Fir.		Andorra Juniper..Juniperus Communis Depressa Plumosa. Compact, plumed, spreading. More prostrate grower than the Pfitzer. During winter foliage turns to a beautiful light purple.	
2 to 3 ft	5.00	12 to 15 in spread	2.50
3 to 4 ft	7.50	18 to 24 in spread	5.00
4 to 5 ft	10.00	2 to 3 ft spread	7.50
Balsam fir..Abies Balsames. Regular and symmetrical in growth, hardy, native, thriving in moist soils and cool climates. One of the most beautiful evergreens grown and attractive the year through.		J. Virginiana Burki..Burk's Silver Juniper. A silvery blue, compact, upright form of merit. Stands shearing well and is much prized for foundation planting.	
2 to 3 ft	5.00	2 to 3 ft	5.00
3 to 4 ft	7.50	3 to 3 1/2 ft	7.50
		4 to 5 ft	10.00
Chamaecyparis-JAP. CYPRESS		J. Chinensis..Green Chinese Juniper. A select green type that is hardy and good form. Holds its green color in winter when other evergreens are dull.	
Chamaecyparis Pisifera..Sawara Cypress. The foliage somewhat resembles that of the Arbor-Vitae except that the tree is more graceful. Can be used in foundation planting or as a specimen.		15 to 18 in.	3.00
		18 to 24 in	5.00
		24 to 30 in	7.50
C. Pisifera aurea..Golden Sawara Cypress. Has all the characteristics of the preceding except that the foliage is of a lighter green and is bordered with yellow in early spring.		J. Chinensis Pfitzerana..Pfitzer Juniper. The most popular of the spreading types. It lies close to the ground and for edging larger plantings it has no equal.	
		15 to 18 in spread	4.00
C. Pisifera Plumosa aurea..Gold Plumed Cypress. Similar to the preceding except that the young foliage is golden in the early spring.		18 to 24 in spread	5.00
		24 to 30 in spread	7.50
Prices for above Chamaecyparis (Hedraea)		Maukegan Juniper...A prostrate Juniper, light green in color and especially good for borders.	
1 1/2 to 2 ft	3.00	1 1/2 to 2 ft spread	5.00
2 to 3 ft	5.00	2 to 2 1/2 ft spread	6.00
3 to 4 ft	6.00

Evergreens- Continued

EACH

EACH

J. Virginiana Hillii..Hill's Dundee Juniper. A pyramidal, compact growing evergreen of much merit. Bluish green foliage in spring, changing to plumlike color in early autumn. Stands shearing well. Excellent for formal planting.

2 to 3 ft	5.00
3 to 3½ ft	7.50
4 to 5 ft	10.00

Globe Juniper..A fine, rather compact, globe variety with tufted dark green foliage which is retained throughout the winter. Can easily be kept in bounds by slight pruning. Valuable for foundation plantings.

18 to 24 in spread	6.00
24 to 30 in spread	7.50

J. Hibernica Fastigata..French Juniper. Of decided columnar form and immediately attracts attention. It is slender in habit. Superior to Irish Juniper.

2½ to 3 ft	3.00
3 to 3½ ft	4.00
4 to 4½ ft	6.00

J. Excelsa..Greek Juniper. An unusually attractive, dwarf conical tree with compact bluish green foliage. Very pleasing wherever used.

1 to 1½ ft	3.50
1½ to 2 ft	5.00
2 to 2½ ft	7.50

J. Virginiana Cannarti..Cannart's Juniper. A fine pyramidal, compact growing evergreen with wonderful winter color, and the best of its type. It is perfectly hardy and never suffers winter burn, common to some other junipers.

J. Virginiana Kettleri. A rather formal light green variety which stands shearing well. Pyramidal.

J. Virginiana Glauca..Blue Juniper. One of the best trees offered today. It grows pyramidal but has gracefully spreading branches if left un-

trimmed. When sheared a perfect column may be had in color a light blue and a distinct contrast to any other of the group.

Prices for preceeding Junipers.

2 to 3 ft	5.00
3 to 4 ft	6.00
4 to 4½ ft	7.50
...Larger sizes priced on request.	

Scopulorum Horizontalis..Silver Hill Juniper. Compact, symmetrical and of bright bluish color. Pyramidal.

2 to 3 ft	5.00
3½ to 4 ft	7.50
4 to 5 ft	10.00

PICEA- SPRUCE

Picea Canadensis..White Spruce. A very hardy evergreen with light green foliage and similar in many respects to the Norway Spruce, except that it is decidedly slower growing in our locality.

P. Excelsa..Norway Spruce. The most popular of the Spruce family, as it is easy to transplant, hardy and grows rapidly, pyramidal in shape and when used as a specimen it is very fine.

....Prices for White and Norway Spruce....

1½ to 2 ft	3.00
2 to 3 ft	5.00
3 to 4 ft	6.00
4 to 5 ft	7.50
5 to 6 ft	10.00

P. pungens Glauca..Colorado Blue Spruce. Selected blue seedlings, known as shiners and in many instances look and cannot be told from Posters.

1½ to 2 ft	5.00
2 to 3 ft	7.50
3 to 4 ft	10.00

P. pungens Posteri..Poster Blue Spruce. This is the most beautiful of all the Blue Spruce, being of grafted variety it is of uniform blue color. The aristocrat of the

Evergreens - continued

The foliage is of light green and attractive. These are largely used for front line planting and in formal work.

1 to 1½ ft	2.50
1½ to 2 ft	5.00
2 to 2½ ft	6.00

T. Occidentalis..Pyramidal Arbor-vitae. Strikingly, attractively, spreading, very little at the base and retaining its shape without shearing. The color is deep rich green. Like all arborvitae it is easy to transplant. For corners from pillars or background of group planting, no dwarf evergreen is quite so popular.

2 to 2½ ft	3.50
3 to 4 ft	5.00
4 to 5 ft	7.50

T. Orientalis Aurea Conspicua..Gold spire Arbor-vitae. One of the most conspicuous of the golden pyramidal arbor-vitae.

2 to 3 ft	5.00
3 to 4 ft	6.00
4 to 5 ft	7.50
5 to 6 ft	10.00

...all of our stock will be freshly dug when ordered. Do not confuse our high quality fresh plants with those often sold by Stores and Peddlers. There is no substitute for good plantings.

Consult us when in need of landscape service. We give the best of service.

Your planting should reflect beauty and color. We are your assurance for quality at reasonable cost. Free estimates.

EACH

T. Orientalis (Biota Aurea Nana) Berckman Golden Arbor-vitae..Very dwarf, compact and symmetrical habit, a perfect gem for small gardens or cemetery lots or brightening up foundation plantings.

15 to 18 in	4.00
1½ to 2 ft	6.00
2 to 2½ ft	10.00

T. Orientalis Compacta..Chinese Compacta. Dwarf dense little tree with light green foliage, neat and attractive.

15 to 18 in	3.00
1½ to 2 ft	5.00
2½ to 3 ft	6.00

TSUGA - HEMLOCK

Tsuga Canadensis..Canada Hemlock. We consider the Hemlock one of the best of all evergreens. Grows rapidly and can be used either as a specimen, in foundation planting, or as a hedge. Can be pruned often and severely. While the Hemlock prefers a good rich soil, with moisture, it will grow almost anywhere. Its sweeping branches are graceful and when sheared becomes rather compact. Always retains its rich green color, summer or winter. Grows well in either full sun or shade.

2 to 3 ft	5.00
3 to 4 ft	7.50
4 to 5 ft	10.00

...Special prices will be made on larger sizes on request, and also on other varieties of evergreens that are not listed herein.

POTTER NURSERIES

BROADLEAF EVERGREENS

Not many home owners know what this title means. Think of the Hollies and the Laurels as an example. We should sorely miss the glossy green foliage of the Broad Leaved Evergreen in early spring, the deeper colors of Summer, and the cheerful contrast they give the dull winter scenes. They may be used around the house foundation, planted with tall evergreens, or in the shrub border. You will be delighted with their beauty all the year- and you will like the plants we supply.

AZALEAS

EACH

Evergreen. There are many varieties and colors of azaleas under this heading. We only list a few of the most used varieties in this section.

AZALEA MOLLEIS, mixed colors 3.50
Yellow Salmon & Pink 12-15"
 Amoena..Flowers rosey purple, hardy and early flowering.
 10 to 12 in 3.00
 12 to 15 in 4.00
 15 to 18 in 6.00

Hinodegiri..Flowers are brilliant scarlet, probably the most popular azalea grown.

8 to 10 in 3.00
 10 to 12 in 3.50

Calendulacea- Flame azalea. The most beautiful and varied species. Flowers very from red-orange to salmon and canary.

1½ to 2 ft clumps 1.50
 2½ to 3 ft clumps 2.50
 3 to 4 ft clumps 3.50

Azalea Nudiflora- Has a deep pink bloom in May.

1½ to 2 ft 1.50
 2 to 3 ft 2.50
 3 to 4 ft 3.50

The above two Azaleas are not evergreen, but we are listing them under this heading for convenience.

If you do not find sizes and plants to suit your needs write or phone, we will be glad to quote prices on items not included in this catalog.

EACH

Orders for Azaleas should be placed early, as stock is usually exhausted before the season is over.

PYRACANTHA

Lalandi Firethorn..Pyracantha Coccinea Lalandi. A beautiful variety of the evergreen burning bush. Very effective and desirable. In early spring the plant is covered with a profusion of white flowers, which are followed by bright orange berries, these being retained all winter.
 2 to 3 ft 5.00
 3 to 4 ft 7.50

Rhododendrons-W.Va.State Flower

Unquestionably the most magnificent blooming broad leaved evergreen. The broad leathery foliage alone is worth the effort, while the huge gorgeous flowers add indescribable beauty and color.

Hybrid Rhododendrons..We import these direct from Holland. In habit this is the best Rhododendron. Hybrids are grafted plants naturally heavily budded, compact, globe. Its flowers are easily forced, and it is one of the hardiest. Dwarf. Colors: Red, Rose Pink, Lavender, White.
 15 to 18 in 6.00

Rhododendron Maxium..This is the

100 lbs. 5.50

FLOWERING SHRUBS

There is some place for flowering shrubs around every home, -cottage
mansion and palace. A corner needs a little color, a foundation
wall needs to be concealed, a garage should be screened. In all of
these places flowering shrubs are adaptable and useful. From our
fields this year we shall take the finest shrubs possible to grow,
large well developed plants, with good roots, and not by any means
like the shrubs sold on bargain counters, which in many cases are
of unknown origin; in fact, our shrubs carry several canes and only
the smaller sizes can be sent by parcel post, others go by express.

ADELIA

EACH

(See Broad Leaved Evergreens)

ALMOND.

Dwarf Double flowering. Double
pink and white flowers in early
spring.

MAGNOLIA

EACH

Magnolia acuminata.. Cucumber Tree.
Known native of our mountains,
conical in shape and with large
glaucous leaves making it attract-
ive. The flowers are fragrant,
usually a dull white color. Flow-
ers are followed by elongated gr-
een seed clusters which later
turn to coral. Very satisfactory.

6 to 8 ft 5.00
8 to 10 ft 7.50

Magnolia soulangeana.. Saucer Mag-
nolia. All of the *Soulangeana*
type have large tulip shaped
blossoms with purplish-pink color
which extend in the spring before
the leaves. A garden treasure.

Magnolia soulangeana nigra.. Pur-
ple Magnolia. Dark purple on the
outside with shades of pink on
inside. Flowers later and some-
what hardier.

Magnolia stellata.. Star Magnolia.
Native of the Orient. Shrubby ha-
bit with fragrant, semi-double
starlike flowers which appear be-
fore the leaves. One of the best.
18 to 24 in. 6.50

3 to 4 ft	1.50
4 to 5 ft	3.00

WEIGELA

Hardy free flowering shrub of spreading habit with bell or trumpet shaped flowers, thrives in most soils.

Weigelia Eva Rathke..The best red.

Weigelia Rosea..Delicate pink.

2 to 3 ft	RED 1.50	.75
3 to 4 ft	PINK 2.50	1.00
4 - 5 ft	PINK 3.50	

ROBINA- Locust

Robina Hispida..Moss Locust, 6 to 8 ft. Foliage resembles that of our native locust, but the mass of long, graceful, deep pink flowers in May make it most attractive.

3 to 4 ft	1.50
-----------	------

Our shrubs are transplanted and cut back to increase root-systems and bushiness. Don't confuse our shrubs with sickly shrubs offered in many places. Quality more than mere price. Size means more than height.

HEDGE

A thrifty green hedge gives more character and beauty to home grounds than any other fence ever devised. The first cost of a hedge is less than that of a fence; trimming costs less than painting; if the hedge is allowed to grow tall it shuts out unpleasant views and is decorative all the year. In cities hedge is an effective boundary marker, a wall of living green that protects the world within from the world without. The different hedge plants listed here are adopted to a variety of uses- and the plants

HEMLOCK HEDGE

The aristocrat of the hedges. While a great many plants have been used from time to time in making hedges, there is none for all-round purposes with qualities superior to the Hemlock. Its rich green color in winter or summer, softness of texture, compactness, hardiness, ability to thrive in shade or open exposure, freedom from disease, are some of the outstanding qualities. Can be furnished in heights of from 2 to 10 feet. For prices see under Evergreens.

JAPANESE BARBERRY-(GREEN BARBERRY)

Each year sees an increased use of Japanese Barberry as a hedge plant. It is graceful, ornamental, serviceable, and hardy. Four points that place it at the top of the list. The foliage unfolds in early spring, followed by yellow flowers, and later by red berries that remain all winter. For prices see page 8 (Barberry-Thunbergi)

FRAGRANT BUSH HONEYSUCKLE (Lonicera Fragrantissima)

The very best tall growing hedge ever offered and best for screening purposes. It is almost evergreen, holding its foliage all season even in mid-winter. It blooms in March and has a most fragrant blossom. Makes a strong, bushy, dense plant and normally grows into a hedge 6 to 12 ft. high. Requires very little pruning and will grow anywhere. For prices see page 9. (Extra charge for planting)

POTTER NURSERY

VINES

These are the draperies that nature gives us to cover porches, arbors and fences. To disguise unsightly buildings and old trees. All the vines named herein are strong growers, with either bright flowers in summer or brilliant berries in the fall. Use vines freely to make the landscape more beautiful. They thrive almost anywhere.

EACH

EACH

Ampelopsis quinquefolia
Englemanni..

Virginia Creeper. This is the five leaved Ivy that is so valuable for covering walls, fences, etc. It will grow anywhere and the colors are brilliant in fall.
2 year vine .75

A. VEITCHII

Boston Ivy..The best for self-clinging vines.
2 year vine .75

BIGNONIA RADICAN

Trumpet Vine. A vigorous woody vine bearing scarlet flowers.
2 year vine .75

CELASTRUS SCANDENS

Bittersweet. An unusually attractive native vine because of its snowy berries in fall and early winter.
2 year vine 1.00

CLEMATIS

Clematis Jackmani. The most popular Chinese Clematis. Has large purple flowers.

Texensis *Scarlet URN-SHAPED Flowers*

Clematis Henryi (Single White)

Mme. Ed. Andre (Single red)

CRISPA Purple URN-Shaped Flowers

SHADE TREES

When the hot summer sun beats down, you long for the welcome shade of a Maple, an Oak or a broad, spreading Elm, but to have and enjoy such shade and shelter you must plant ahead. The trees must be planted in the fall or spring when the weather is cool. Then the roots take hold, the trees flourish, and in a surprisingly few seasons the out-spreading branches give the protection you desire.

ACER DASYCARPUM
Silver Maple. Because of its quick growth and good foliage, this tree is in great demand.
6 to 8 ft 5.00
8 to 10 ft 7.50
10 to 12 ft 10.00

AMERICAN LINDEN 2' 1.50
ACER PLATANOIDES

Norway Maple. Resembles the Sugar Maple character, but with darker and larger foliage. Round and spreading in habit of growth, it is really the European Hard Maple, and retains this character here. For lawn specimen or shade to plant on streets, parks or cemeteries, this tree is highly recommended.

ACER PLATANOIDES SCHWEDLERI
Schwedler Maple. Similar to Norway Maple, except in early spring the foliage is of a bright purple changing to bronze, then to a dull green. In fall it turns to bronze before defoliating.

DWARF JAP. Blood Leaf Red
Acet Blamatom ATRORUTULEAN
Maple 2-2 1/2 5.00

ACER RUBRUM
Red Maple. A native tree which is not appreciated and one of the most attractive as a lawn specimen. The young shoots are bright red in winter. Flowers red appearing before the leaves.

Crimson King Red Maple 6-7 1/2 7.50
Prices for Norway, Schwedler and Red Maple.

7 to 9 ft 5.00
8 to 10 ft 7.50
10 to 12 ft 10.00
12 to 14 ft 17.50

ACER SACCHARUM
Sugar Maple. Known everywhere and extremely popular. The tree grows to a great size, erect, conical form, is perfectly hardy. Foliage is deep green turning in the fall to indescribable colors.
6 to 8 ft 4.50
8 to 10 ft 6.50

10 to 12 ft	10.00

Golden Weeping Willow 2-3' 1.00 ea
CORNUS - DOGWOOD

Cornus Florida. White Flowering Dogwood. A native tree, well known to everyone. It is beautiful all the year, and there is hardly a woody plant quite so useful. Its blossoms are conspicuous coming early in the spring. The foliage is attractive all summer. Red berries hang most of the winter.

2 to 3 ft	3.00
3 to 4 ft	5.00
4 to 5 ft	7.50
8 - 10 ft	25.00

Cornus Florida Rubra..Pink Flowering Dogwood. This is not a new or uncommon tree, but one too often overlooked as a means of beautifying home grounds. The common White variety may be better known, but this pink flowering type affords the loveliest display. Our trees are shipped balled and burlapped to insure safe and sure growth. Like the white flowering kind, the leaves of this dogwood color attractively in the fall.

2 to 3 ft	5.00
3 to 4 ft	7.50
4 to 5 ft	10.00
1 1/2 - 2'	3.00 12-15" 1.50

CERCIS - JUDAS TREE

Cercis Canadensis..Red Bud or Judas Tree. Early harbinger blooming in April, and literally covered with red or pink flowers before the leaves appear. It is a small shapely tree, with large, deep green leaves.

3 to 4 ft	2.50
4 to 5 ft	3.50
6 to 8 ft	7.50
8 to 10 ft	10.00

FRAXINUS - ASH

White Ash. A native tree, thrives well in dry, moist and alkaline soils.

4 to 5 ft	3.00
6 to 8 ft	5.00

GINKGO - MAIDENHAIR TREE

The Ginkgo is one of the oldest in the world. It is a hang-over from prehistoric ages and has no relatives in the plant kingdom. The foliage changes to a golden yellow in the fall. A unique tree which is worthy of a place on any lawn.

5 to 6 ft	5.00
-----------	------

HALESIA

Halesia Tetraptera. Silver Bell. Blooms with the Dogwood. Great mass of snow white bell shaped flowers are most attractive.

	EACH	EACH
(Halesia-Continued)		
5 to 6 ft.	5.00	M. Hopa. . Hopa Crab. 18 to 20 ft.
8 to 10 ft.	7.50	Strong, healthy tree, rosy pink flowers. Fruit red inside and out.

LIQUIDAMBAR- SWEET GUM

Liquidambar Styraciflua. Another native tree not appreciated. It is not of rapid growth nor especially easy to transplant, but the glossy foliage in summer, the brilliant color in the fall, and the unusual appearance of the young branches with corky bark in the winter are qualities which make it especially valuable.		M. Toensis Plena..Betchels Crab. 12 to 15 ft. Rather slow grower with upright, spreading branches. Its double pink flowers resemble clusters of small roses.
6 to 8 ft.	5.00	M. Niedzwetzkyana..Redvein Crab. 15 to 20 ft.. A Russian variety with purplish red flowers, twigs, leaves and fruit. A rather large spreading tree than most varieties.
8 to 10 ft.	10.00	
10 to 12 ft. 2 in caliper	17.50	

LIRIODENDRON - TULIP TREE

Liriodendron Tulipifera..Tulip Poplar. Belongs to the Magnolia Family, and is one of the finest native trees, growing to be very large, and bearing tulip-shaped yellowish blossoms. Its leaves are large, and very dark green. Grows quickly after it becomes established.	
6 to 8 ft.	5.00
8 to 10 ft.	10.00
10 to 12 ft.	17.50

MAGNOLIA

See Ornamental Shrubs and Broad-leaf Evergreens.

MALUS - FLOWERING CRAB

The flowering Crab has few rivals among the gorgeous spring flowering trees. They are hardy, of easy culture, and will thrive in almost any soil. They are available in many shades and when used as specimen or mass planting are most effective. Many kinds bear very ornamental fruit. No lawn is complete without one of these trees.

M. Floribunda..Japanese Flowering Crab. 12 to 15 ft. A small spreading tree with graceful arching branches. Buds rosy red changing to light pink. Fruit reddish and snowy. One of the best.

Prices of all Crabs.

3 to 4 ft.	3.00
4 to 5 ft.	5.00

NYSSA - SOUR GUM

Nyssa Sylvatica..Tupelo Gum. One of the finest trees known for fall coloring. It has long, narrow, glossy leaves and is rather slow growing. Very attractive all season. Not often offered Nursery grown.	
4 to 5 ft.	5.00
5 to 6 ft.	7.50

PLATANUS & SYCAMORE

Platanus Orientalis. A native Sycamore which is not appreciated. However, if you want a tree of rapid growth, rugged character, picturesque in winter with its white bark, you should not overlook this grand old tree. Tolerant of soot and smoke, used as a street tree in cities.	
7 to 9 ft.	3.00
8 to 10 ft.	6.00
10 to 12 ft.	8.00

POPLUS - POPLAR

Populus Nigra Italica..Lombardy Poplar. A tall, slender tree of rapid growth, reaching great height and not to be construed with the Carolina Poplar. Specimen often reach 50 feet, with spread of less than 10 feet. and

...SPRAYING AND FEEDING TREES...

We are now equipped to spray and feed large trees, using modern equipment and scientific methods. If your favorite shade tree is being destroyed by insects or is starving, you may need expert advice. Consult us when in need of spraying and feeding service. Shade trees need feeding.

Shade Trees, Shrubs, Small Fruits and Roses are best planted after we have had sufficient frost to kill the foliage and make them dormant.

continued next page

POTTER NURSERIES

Trees for Shade and Shelter - continued

HOW TO PRUNE TREES

With shade trees having a heavy top it should be removed. Prune to avoid crowding branches. Cut out some of the small branches, but do not cut off the leader or the main stem. Try to get a well developed head, strong leaders, and branches at wide, not close angles. Cut off all broken roots. Paint cuts with tree paint.

HOW TO PLANT TREES

To insure successful results the ground should be well prepared before planting, enriching the soil removed, if necessary, with well decayed manure, or Potter Nurseries Peat Humus, which should be well mixed. The hole should be dug at least two feet wider than the diameter of spread of roots of the tree. Plant the tree about 1" deeper than it stood in the Nursery, as indicated by the soil line of the tree. The roots should be spread out in the natural way, filling in with fine soil, and the soil pressed to the roots very firmly with feet or a tamper.

....FOR BEST RESULTS WE SUGGEST YOU CALL ON US FOR EXPERT SERVICE....

ROSE BUSHES

Many Roses which succeed in the North and other parts of the country do not do so well in West Virginia. Almost every Rose listed in our catalog has been tested on our own grounds and proven satisfactory and dependable. We have discarded or do not carry many which will be listed and described favorably in other lists. Why spend your money on doubtful kinds when you can buy our "Tried and Tested" Roses.

Surely everybody loves Roses. The Rose is today, as in past years, the most desired flower of all. Recognizing this appeal and demand, we have specialized in growing Rose plants of choice varieties.

The list which follows is the result of our efforts and represents the "Cream of the Crop". Plant any of them with confidence.

FRUIT TREES

West Virginia Grown Fruit Trees.

We have given special attention to growing a fine lot of fruit trees the past few years. Our trees are the finest that can be had. Of course we know that it was only a short time ago you had to send away for fruit trees of all kinds, as they were not being offered by any Nurseries in this section. We are growing and offering a complete line of Fruit and Ornamental trees. We extend an invitation for you to visit our Nursery and inspect our trees at any time.

Lillies

POTTER NURSERY'S

EACH

EACH

ALBUM

Beautiful, snow-white, with a golden green stripe through the center of each petal, and anthers of a coppery tint. Alike in the form of the flower and in the way of growing, this Lily is one of the best.

BROWNII

White, outside brownish, 1 to 3 trumpets on a stem.

HANSONI

One of the earliest to appear in spring. Bright orange-yellow, spotted with brown, waxy texture, height 4 to 5 ft- blossoms 2 in. across, regularly reflexed. June flowering

HENRYI

Vigorous, seldom fails. Height over 8 ft. more than 20 flowers- apricot-yellow. Fine foliage. Does well in both light and heavy loam. August, September

LONGIFLORUM (Easter Lily)

Pure white, trumpet shaped flowers on 2 foot stems- July

MARTAGON ALBUM

White, slender stems 4 to 5 ft. high. Drooping, waxlike, white Turk's Cap flowers, yellow tipped stamens. Symmetrical reflexed petals, born in pyramid-shaped clusters

MARTAGON

Purple. Light spotted purple flowers. Strong growing, graceful, vigorous, and floriferous. 20 to 30 flowers- June and July

PYRENAICUM AUREUM

Yellow

1.31

REGALE

White trumpet, outside carmine, one of the most popular varieties for outside and also good for forcing.

RUBRUM

Rose-pink, spotted crimson. Blooms August- 3 to 4 ft

SARGENTIAE

Half opened, large white flowers shadowed rose, center striped greenish, outside grey violet.

SCOTTIAE

TENUIFOLIUM GOLDEN GLEAM

A beautiful, robust and floriferous hybrid of this type, bearing numerous flowers of a pure apricot-yellow. June flowering.

SUMMER BULBS

Available each spring. Gladiolas, Dahlias, Cannas, Begonias, etc.

Free lists sent on request, giving complete list of varieties.

We always have bulbs, perennials and peonies.

SPRING FLOWERING BULBS

Available each fall. Tulips, Hyacinths, Crocus, Daffodils, etc.

Free lists sent on request.
